Subject Index

3D sonography
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
prenatal diagnosis of Chiari 384 malformation by 2D and 3D sonography: a case report and synthesis of the literature, 295

Abdominal sonography
abdominal wall neuroma, 225
the pseudokidney sign, 257
stomach peptic ulcer: confined gastric perforation, 39
Adenomas
sonographic imaging of a pleomorphic adenoma of the salivary gland, 299
Adrenal hyperplasia, congenital
testicular adrenal rest tumors associated with congenital adrenal hyperplasia, 16
American College of Radiology (ACR) guidelines
incidental findings during routine antepartum obstetrical sonography, 344
American Institute of Ultrasound in Medicine (AIUM) guidelines
incidental findings during routine antepartum obstetrical sonography, 344
Arrhythmias
fetal bifid left ventricular diverticulum presenting with ventricular ectopy, 165
prenatal diagnosis of atrial flutter, 30
Artifacts, sonographic
mirror-image artifact mimicking a carotid artery dissection, 26
Ascites, fetal
second-trimester findings associated with nonimmune hydrops, 93
Association
measures of association: how to choose?, 155
Atrial flutter
prenatal diagnosis of atrial flutter, 30

Baker's cysts
infected popliteal (Baker's) cyst: a complication of rheumatoid arthritis, 233
Beta-human chorionic gonadotropin (B-hCG)
chronic ectopic pregnancy, 101
sonographic detection of cornual ectopic pregnancy, 252
Biliary atresia
antenatal diagnosis of a choledochal cyst, 104
Bladder imaging
placenta percreta with bladder invasion diagnosed with sonography: images and clinical correlation, 238
Blue rubber bleb nevus syndrome
blue rubber bleb nevus syndrome, 365
Body surface area
evaluation of body surface area as a determinant of cholecystodynamics due to orally administered standardized skimmed milk, 4
Bone diseases
characterization of osteocortical-periosteal layers by high-resolution sonography using a Doppler technique in Paget's disease of bone, 136
multiple osteochondromas: an incidental finding, 169
Brachial plexus palsy
sonography as a preferred diagnostic tool to assess shoulder displacement in brachial plexus palsy, 339
Breast sonography
image segmentation for evaluating axillary lymph nodes, 329

Cardiac arrhythmias. *see* Arrhythmias
Cardiac imaging
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
evaluation and optimization of real-time perfusion imaging using multiple ultrasound systems with Imagify microspheres, 286
fetal bifid left ventricular diverticulum presenting with ventricular ectopy, 165
Cardiac imaging, fetal
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
prenatal diagnosis of atrial flutter, 30
Carnegie staging
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
Carotid artery dissection
mirror-image artifact mimicking a carotid artery dissection, 26
Cartilaginous cap
multiple osteochondromas: an incidental finding, 169
Cervical carcinoma
cervical carcinoma, 317
Chapman, James V.
the 2006 Kenneth R. Gottesfeld Award winners, 2
Chiari malformation
intraoperative spinal sonography: a case study of a syringomyelia, 228

Subject Index

3D sonography
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
prenatal diagnosis of Chiari 384 malformation by 2D and 3D sonography: a case report and synthesis of the literature, 295

Abdominal sonography
abdominal wall neuroma, 225
the pseudokidney sign, 257
stomach peptic ulcer: confined gastric perforation, 39
Adenomas
sonographic imaging of a pleomorphic adenoma of the salivary gland, 299
Adrenal hyperplasia, congenital
testicular adrenal rest tumors associated with congenital adrenal hyperplasia, 16
American College of Radiology (ACR) guidelines
incidental findings during routine antepartum obstetrical sonography, 344
American Institute of Ultrasound in Medicine (AIUM) guidelines
incidental findings during routine antepartum obstetrical sonography, 344
Arrhythmias
fetal bifid left ventricular diverticulum presenting with ventricular ectopy, 165
prenatal diagnosis of atrial flutter, 30
Artifacts, sonographic
mirror-image artifact mimicking a carotid artery dissection, 26
Ascites, fetal
second-trimester findings associated with nonimmune hydrops, 93
Association
measures of association: how to choose?, 155
Atrial flutter
prenatal diagnosis of atrial flutter, 30

Baker's cysts
infected popliteal (Baker's) cyst: a complication of rheumatoid arthritis, 233
Beta-human chorionic gonadotropin (B-hCG)
chronic ectopic pregnancy, 101
sonographic detection of cornual ectopic pregnancy, 252
Biliary atresia
antenatal diagnosis of a choledochal cyst, 104
Bladder imaging
placenta percreta with bladder invasion diagnosed with sonography: images and clinical correlation, 238
Blue rubber bleb nevus syndrome
blue rubber bleb nevus syndrome, 365
Body surface area
evaluation of body surface area as a determinant of cholecystodynamics due to orally administered standardized skimmed milk, 4
Bone diseases
characterization of osteocortical-periosteal layers by high-resolution sonography using a Doppler technique in Paget's disease of bone, 136
multiple osteochondromas: an incidental finding, 169
Brachial plexus palsy
sonography as a preferred diagnostic tool to assess shoulder displacement in brachial plexus palsy, 339
Breast sonography
image segmentation for evaluating axillary lymph nodes, 329

Cardiac arrhythmias. *see* Arrhythmias
Cardiac imaging
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
evaluation and optimization of real-time perfusion imaging using multiple ultrasound systems with Imagify microspheres, 286
fetal bifid left ventricular diverticulum presenting with ventricular ectopy, 165
Cardiac imaging, fetal
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
prenatal diagnosis of atrial flutter, 30
Carnegie staging
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
Carotid artery dissection
mirror-image artifact mimicking a carotid artery dissection, 26
Cartilaginous cap
multiple osteochondromas: an incidental finding, 169
Cervical carcinoma
cervical carcinoma, 317
Chapman, James V.
the 2006 Kenneth R. Gottesfeld Award winners, 2
Chiari malformation
intraoperative spinal sonography: a case study of a syringomyelia, 228

prenatal diagnosis of Chiari 384 malformation by 2D and 3D sonography: a case report and synthesis of the literature, 295
Children. *see also* Infants
multiple osteochondromas: an incidental finding, 169
transcranial sonogram through a sutural fracture for the assessment of posttraumatic intracranial mass lesion in a child, 107
Cholecystodynamic studies
evaluation of body surface area as a determinant of cholecystodynamics due to orally administered standardized skimmed milk, 4
Choledochal cysts
antenatal diagnosis of a choledochal cyst, 104
Chronic venous insufficiency
duplex evaluation of incompetent perforator veins and sonography-guided radiofrequency ablation, 303
Coded excitation
a simplified explanation of deconvolution, 11
Coefficients
measures of association: how to choose?, 155
Computed tomography
stomach peptic ulcer: confined gastric perforation, 39
Congenital anomalies
antenatal diagnosis of a choledochal cyst, 104
cystic hygroma, 218
a hole in the head: diagnostic challenge, 43
imperforate anus with renal ectopia, 34
improving detection of transposition of the great arteries in routine obstetric sonographic screening, 279
persistent right umbilical vein and left-sided gallbladder, 97
testicular adrenal rest tumors associated with congenital adrenal hyperplasia, 16
Congenital heart disease
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
Contrast enhancement
evaluation and optimization of real-time perfusion imaging using multiple ultrasound systems with Imagify microspheres, 286
Contrast resolution
enhancing image quality using advanced signal processing techniques, 72
Cord entanglement
monochorionic-monoamniotic twins in rural America, 174
Cortisol
testicular adrenal rest tumors associated with congenital adrenal hyperplasia, 16
Cystic hygroma
cystic hygroma, 218
Cysts
antenatal diagnosis of a choledochal cyst, 104
infected popliteal (Baker's) cyst: a complication of rheumatoid arthritis, 233
intraoperative spinal sonography: a case study of a syringomyelia, 228
sonographic detection of the ovarian hyperreactio luteinalis in pregnancy, 369

Deconvolution
a simplified explanation of deconvolution, 11
Diabetes
roles of sonographers in the management of diabetes: a proposed framework, 84
Doppler, color
characterization of osteocortical-periosteal layers by high-resolution sonography using a Doppler technique in Paget's disease of bone, 136
a hole in the head: diagnostic challenge, 43
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
Doppler waveforms
characterizing triphasic, biphasic, and monophasic Doppler waveforms: should a simple task be so difficult?, 269
Duplex assessment
duplex evaluation of incompetent perforator veins and sonography-guided radiofrequency ablation, 303

Echo wavetrain
a simplified explanation of deconvolution, 11
Echocardiography
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
evaluation and optimization of real-time perfusion imaging using multiple ultrasound systems with Imagify microspheres, 286
fetal bifid left ventricular diverticulum presenting with ventricular ectopy, 165
Edema
scrotal edema: a rare sequelae of acute pancreatitis, 311
second-trimester findings associated with nonimmune hydrops, 93
Education and training
characterizing triphasic, biphasic, and monophasic Doppler waveforms: should a simple task be so difficult?, 269
fostering a hierarchy of evidence within the profession, 183
Embryonic development
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207

Encephalocele
prenatal diagnosis of Chiari 384 malformation by 2D and 3D sonography: a case report and synthesis of the literature, 295
Epithelial tumors
sonographic evaluation of an ovarian borderline epithelial tumor, 314
Evidence-based medicine
fostering a hierarchy of evidence within the profession, 183
Exostosis, multiple hereditary
multiple osteochondromas: an incidental finding, 169
Extended field-of-view sonography
interobserver and intraobserver variability in the sonographic measurement of the size of the thyroid gland by extended field-of-view sonography, 147

Fertility-sparing surgery
sonographic evaluation of an ovarian borderline epithelial tumor, 314
Fetal imaging. *see also* Prenatal diagnosis
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
prenatal diagnosis of atrial flutter, 30
France, Rita
the 2006 Kenneth R. Gottesfeld Award winners, 3

Gallbladder
evaluation of body surface area as a determinant of cholecystodynamics due to orally administered standardized skimmed milk, 4
persistent right umbilical vein and left-sided gallbladder, 97
Gastrointestinal cancer
the pseudokidney sign, 257
Generational attitudes
from static scanning to volume imaging: generations climbing to new levels, 260
Germ cell layers
the two extremes of sacrococcygeal teratoma, 242
Gestational age
2D sonographic assessment of the fetal liver in normal pregnant Nigerian women, 361
Gestational trophoblastic neoplasia
cervical carcinoma, 317
Gibbs, Tim S.
the 2006 Kenneth R. Gottesfeld Award winners, 1

Handedness
ambidextrous sonographic scanning to reduce sonographer repetitive strain injury, 127

Head injuries
transcranial sonogram through a sutural fracture for the assessment of posttraumatic intracranial mass lesion in a child, 107
Hemangioma
blue rubber bleb nevus syndrome, 365
Henson node
the two extremes of sacrococcygeal teratoma, 242
Human papillomavirus
cervical carcinoma, 317
Humeral head, posterior displacement of
sonography as a preferred diagnostic tool to assess shoulder displacement in brachial plexus palsy, 339
Hydrops, nonimmune
second-trimester findings associated with nonimmune hydrops, 93
Hygroma, cystic
cystic hygroma, 218
Hyperreactio luteinalis
sonographic detection of the ovarian hyperreactio luteinalis in pregnancy, 369

Image segmentation
image segmentation for evaluating axillary lymph nodes, 329
Imagify
evaluation and optimization of real-time perfusion imaging using multiple ultrasound systems with Imagify microspheres, 286
Imperforate anus
imperforate anus with renal ectopia, 34
Incidental findings
incidental findings during routine antepartum obstetrical sonography, 344
multiple osteochondromas: an incidental finding, 169
Infants. *see also* Congenital anomalies
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
imperforate anus with renal ectopia, 34
Interobserver variation
interobserver and intraobserver variability in the sonographic measurement of the size of the thyroid gland by extended field-of-view sonography, 147
Intracranial mass lesions
transcranial sonogram through a sutural fracture for the assessment of posttraumatic intracranial mass lesion in a child, 107
Intraoperative sonography
intraoperative spinal sonography: a case study of a syringomyelia, 228

Jaundice
antenatal diagnosis of a choledochal cyst, 104

Kenneth R. Gottesfeld Award
the 2006 Kenneth R. Gottesfeld Award winners, 1

Left ventricular wall defect
fetal bifid left ventricular diverticulum presenting with ventricular ectopy, 165
Literature review model
fostering a hierarchy of evidence within the profession, 183
Liver assessment, fetal
2D sonographic assessment of the fetal liver in normal pregnant Nigerian women, 361
Lymph nodes
image segmentation for evaluating axillary lymph nodes, 329
Lymphangioma
cystic hygroma, 218

Magnetic resonance imaging
placenta increta: through the myometrium and beyond?, 246
Measurements
measures of association: how to choose?, 155
Medical information
fostering a hierarchy of evidence within the profession, 183
Milk
evaluation of body surface area as a determinant of cholecystodynamics due to orally administered standardized skimmed milk, 4
Mirror-image artifact
mirror-image artifact mimicking a carotid artery dissection, 26
Myocardial perfusion imaging
evaluation and optimization of real-time perfusion imaging using multiple ultrasound systems with Imagify microspheres, 286

NASA (National Aeronautics and Space Administration)
sonography's expansion into space, 380
Neonates
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
Neurologic diagnostics
abdominal wall neuroma, 225
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
sonography as a preferred diagnostic tool to assess shoulder displacement in brachial plexus palsy, 339
Neuromas
abdominal wall neuroma, 225
Nevus
blue rubber bleb nevus syndrome, 365
Nigerians
2D sonographic assessment of the fetal liver in normal pregnant Nigerian women, 361
roles of sonographers in the management of diabetes: a proposed framework, 84

Obstetrical ultrasound. *see* Pregnancy; Prenatal diagnosis
Osteochondromas
multiple osteochondromas: an incidental finding, 169
Osteoperiosteal vascularization
characterization of osteocortical-periosteal layers by high-resolution sonography using a Doppler technique in Paget's disease of bone, 136
Ovarian borderline tumors
sonographic evaluation of an ovarian borderline epithelial tumor, 314
Ovarian cysts
sonographic detection of the ovarian hyperreactio luteinalis in pregnancy, 369

Paget's disease of bone
characterization of osteocortical-periosteal layers by high-resolution sonography using a Doppler technique in Paget's disease of bone, 136
Pancreatitis
scrotal edema: a rare sequelae of acute pancreatitis, 311
Papanicolaou smear
cervical carcinoma, 317
Pelvic sonography
cervical carcinoma, 317
Perforations
stomach peptic ulcer: confined gastric perforation, 39
Perforator veins, incompetent
duplex evaluation of incompetent perforator veins and sonography-guided radiofrequency ablation, 303
Placentation
placenta increta: through the myometrium and beyond?, 246
placenta percreta with bladder invasion diagnosed with sonography: images and clinical correlation, 238
Pleomorphic adenomas
sonographic imaging of a pleomorphic adenoma of the salivary gland, 299
Pleural effusion
second-trimester findings associated with nonimmune hydrops, 93

Polyhydramnios
prenatal diagnosis of Chiari 384 malformation by 2D and 3D sonography: a case report and synthesis of the literature, 295
Popliteal cysts
infected popliteal (Baker's) cyst: a complication of rheumatoid arthritis, 233
Postoperative pain
abdominal wall neuroma, 225
Pregnancy. *see also* Embryonic development
improving detection of transposition of the great arteries in routine obstetric sonographic screening, 279
placenta increta: through the myometrium and beyond?, 246
placenta percreta with bladder invasion diagnosed with sonography: images and clinical correlation, 238
pregnancy-induced accelerated growth and vascularity in a thyroid nodule, 179
sonographic detection of the ovarian hyperreactio luteinalis in pregnancy, 369
the two extremes of sacrococcygeal teratoma, 242
Pregnancy, ectopic
chronic ectopic pregnancy, 101
sonographic detection of cornual ectopic pregnancy, 252
sonographic evaluation of interstitial (cornual) ectopic pregnancy, 374
Pregnancy, twin
monochorionic-monoamniotic twins in rural America, 174
Prenatal diagnosis
antenatal diagnosis of a choledochal cyst, 104
2D sonographic assessment of the fetal liver in normal pregnant Nigerian women, 361
fetal bifid left ventricular diverticulum presenting with ventricular ectopy, 165
a hole in the head: diagnostic challenge, 43
incidental findings during routine antepartum obstetrical sonography, 344
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
monochorionic-monoamniotic twins in rural America, 174
prenatal diagnosis of atrial flutter, 30
prenatal diagnosis of Chiari 384 malformation by 2D and 3D sonography: a case report and synthesis of the literature, 295
second-trimester findings associated with nonimmune hydrops, 93
Preoperative diagnosis
chronic ectopic pregnancy, 101
Prostatitis
transrectal sonographic findings in chronic prostatitis: a comparative study with an asymptomatic control group, 88
Pseudokidney sign
the pseudokidney sign, 257
Publication guidelines
sonographers' guide to effectively writing a paper for publication, 321

Radiofrequency Stylet
duplex evaluation of incompetent perforator veins and sonography-guided radiofrequency ablation, 303
Real-time sonography
evaluation and optimization of real-time perfusion imaging using multiple ultrasound systems with Imagify microspheres, 286
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
a simplified explanation of deconvolution, 11
from static scanning to volume imaging: generations climbing to new levels, 260
Renal ectopia
imperforate anus with renal ectopia, 34
Repetitive strain injury
ambidextrous sonographic scanning to reduce sonographer repetitive strain injury, 127
Research methodology
fostering a hierarchy of evidence within the profession, 183
Research papers
sonographers' guide to effectively writing a paper for publication, 321
Resolution
enhancing image quality using advanced signal processing techniques, 72
Rhabdomyomas
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
Rheumatoid arthritis
infected popliteal (Baker's) cyst: a complication of rheumatoid arthritis, 233

Sacrococcygeal teratoma
the two extremes of sacrococcygeal teratoma, 242
Salivary gland adenomas
sonographic imaging of a pleomorphic adenoma of the salivary gland, 299
Scrotal edema
scrotal edema: a rare sequelae of acute pancreatitis, 311
SDMS-JDMS CME tests
advanced signal processing techniques, 75
choosing measures of association, 163

cystic hygroma, 223
Doppler waveform analysis, 277
evaluating axillary lymph nodes, 337
gallbladder motility and body surface area, 4
neuroimaging and embryonic development, 216
Paget's disease of bone, 145
testicular adrenal rest tumors, 20
transposition of the great arteries, 284
Shoulder displacement
sonography as a preferred diagnostic tool to assess shoulder displacement in brachial plexus palsy, 339
Signal processing
enhancing image quality using advanced signal processing techniques, 72
Sonoembryology
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
Sonographers
ambidextrous sonographic scanning to reduce sonographer repetitive strain injury, 127
roles of sonographers in the management of diabetes: a proposed framework, 84
from static scanning to volume imaging: generations climbing to new levels, 260
Sonography. *see also specific types and sites*
enhancing image quality using advanced signal processing techniques, 72
interobserver and intraobserver variability in the sonographic measurement of the size of the thyroid gland by extended field-of-view sonography, 147
measures of association: how to choose?, 155
mirror-image artifact mimicking a carotid artery dissection, 26
a simplified explanation of deconvolution, 11
sonographers' guide to effectively writing a paper for publication, 321
sonography's expansion into space, 380
Space
sonography's expansion into space, 380
Spatial compounding
enhancing image quality using advanced signal processing techniques, 72
Spatiotemporal image correlation
improving detection of transposition of the great arteries in routine obstetric sonographic screening, 279
Spinal sonography
intraoperative spinal sonography: a case study of a syringomyelia, 228
Stomach peptic ulcer
stomach peptic ulcer: confined gastric perforation, 39
Syringomyelia
intraoperative spinal sonography: a case study of a syringomyelia, 228
Syringosubarachnoid shunt
intraoperative spinal sonography: a case study of a syringomyelia, 228

Tachyarrhythmias
prenatal diagnosis of atrial flutter, 30
Testicular masses
testicular adrenal rest tumors associated with congenital adrenal hyperplasia, 16
Thyroid ultrasound
interobserver and intraobserver variability in the sonographic measurement of the size of the thyroid gland by extended field-of-view sonography, 147
pregnancy-induced accelerated growth and vascularity in a thyroid nodule, 179
Tissue harmonic imaging
enhancing image quality using advanced signal processing techniques, 72
increasing the detection rate of normal fetal cardiac structures: a real-time approach, 63
Transcranial sonography
transcranial sonogram through a sutural fracture for the assessment of posttraumatic intracranial mass lesion in a child, 107
Transposition of the great arteries
improving detection of transposition of the great arteries in routine obstetric sonographic screening, 279
Transrectal sonography
transrectal sonographic findings in chronic prostatitis: a comparative study with an asymptomatic control group, 88
Transvaginal sonography
chronic ectopic pregnancy, 101
correlation between 3D transvaginal first-trimester neuroimaging and embryonic development according to Carnegie stadiation, 207
monochorionic-monoamniotic twins in rural America, 174
placenta increta: through the myometrium and beyond?, 246
sonographic detection of cornual ectopic pregnancy, 252
sonographic evaluation of an ovarian borderline epithelial tumor, 314

sonographic evaluation of interstitial (cornual) ectopic pregnancy, 374
Trauma
sonography's expansion into space, 380
transcranial sonogram through a sutural fracture for the assessment of posttraumatic intracranial mass lesion in a child, 107
Tuberous sclerosis
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
Tumors
abdominal wall neuroma, 225
blue rubber bleb nevus syndrome, 365
cervical carcinoma, 317
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
multiple osteochondromas: an incidental finding, 169
the pseudokidney sign, 257
sonographic evaluation of an ovarian borderline epithelial tumor, 314
sonographic imaging of a pleomorphic adenoma of the salivary gland, 299
testicular adrenal rest tumors associated with congenital adrenal hyperplasia, 16
the two extremes of sacrococcygeal teratoma, 242
Twins. *see* Pregnancy, twin

Ulcers
stomach peptic ulcer: confined gastric perforation, 39
Umbilical vein
persistent right umbilical vein and left-sided gallbladder, 97

VACTERL syndrome
imperforate anus with renal ectopia, 34
Vascular malformations
blue rubber bleb nevus syndrome, 365
a hole in the head: diagnostic challenge, 43
improving detection of transposition of the great arteries in routine obstetric sonographic screening, 279
persistent right umbilical vein and left-sided gallbladder, 97
Vein of Galen aneurysm
a hole in the head: diagnostic challenge, 43

Waveform characterization
characterizing triphasic, biphasic, and monophasic Doppler waveforms: should a simple task be so difficult?, 269
Wolf-Parkinson White syndrome
echocardiographic visualization of multiple cardiac rhabdomyomas in a neonate, 22
